Analog output cable for GMH handheld meters

AAG

GMH connection
Dedicated versions connect to GMH 3000 or GMH 5000 series devices.

Flexible output
Use 2 x Ø4 mm banana plugs or loose ends with ferrules.

Matched cable length
AAG2M provides 2 m, while AAG5000 provides 1 m cable length.

Introduction

Each version provides a practical output connection: either 2 x Ø4 mm banana plugs, for example for PRO 51x or ECO 511 devices, or loose ends with ferrules. The AAG2M version has a 2 m cable length for the GMH 3000 series, while AAG5000 has a 1 m cable length for the GMH 5000 series (1 x bayonet socket LTW 4-pole).

Features

GMH series versions

The family includes AAG2M with connection for the GMH 3000 series and AAG5000 with connection for the GMH 5000 series.

Output connection types

The cable is available with 2 x Ø4 mm banana plugs, for example for PRO 51x or ECO 511, or with loose ends fitted with ferrules.

Cable lengths

AAG2M is specified with a 2 m cable length. AAG5000 is specified with a 1 m cable length.

AAG2M

Each version provides a practical output connection: either 2 x Ø4 mm banana plugs, for example for PRO 51x or ECO 511 devices, or loose ends with ferrules. The AAG2M version has a 2 m cable length for the GMH 3000 series.
