

Silicone Protective Cover for GMH 5xxx & GMH 2710 Series

K 50 Cover

Introduction

Handheld instruments are used where scratches, knocks and frequent handling are part of daily work. This silicone protective cover helps protect the device housing of GMH 5xxx and GMH 2710 series instruments during routine use in laboratory, service and field applications.

The cover also supports secure handling of the instrument, giving users a practical way to protect meters that move between benches, tool cases and measurement points. Color options in gray, blue and red make it easier to visually differentiate devices where teams work with several instruments.

Features

Instrument compatibility

Designed for instruments of the GMH 5xxx and GMH 2710 series.

Silicone cover construction

The cover uses silicone material and fits around the instrument housing for added protection during use.

Color options

The protective cover is available in gray, blue and red for visual differentiation of devices.

Protects the housing

Silicone cover helps protect GMH 5xxx and GMH 2710 instruments during routine use.

Secure handling

Supports a steadier grip for handheld use in laboratory, service and field applications.

Color differentiation

Available in gray, blue and red for visual identification of different instruments.
