

Magnetic Accessories

MH

Magnetic accessories family with table mount, table stand, wall mount, and magnetic plates for flexible positioning of measuring instruments.

Introduction

The MH magnetic accessories family provides practical mounting solutions for the flexible positioning of measuring instruments in laboratory, service, and industrial environments. The range includes a magnetic table mount with screw clamp, a magnetic table stand with pedestal, a magnetic wall mount, and magnetic plates. These accessories support secure attachment and convenient placement on suitable surfaces, helping to improve instrument handling and measurement setup organization.
