

1 m connection cable for GMH3810 and GMR110 accessories

GMK 3810

Introduction

Connecting measuring accessories to a GMH3810 or GMR110 is easier with a cable made for the instrument interface. This 1 m connection cable provides the link between the device and compatible accessory parts, using 2 x 2 banana plugs and 2 connection sockets for a defined electrical connection.

The family covers two sensor-side connection versions. GMK3810 uses M8x1.25 for GMS300/91 measuring rods and GOK91 surface caps. GMK3810-38 uses M8x1 for GMS300/38 measuring rods and GOK38 surface caps. Both variants support accessory connection to GMH3810 or GMR110.
