

Pair of screw-on surface measurement caps for hand-held electrodes

GOK

Introduction

For surface measurement tasks with GSG hand electrodes, this cap pair provides the specified contact accessory with an 18 mm contact surface diameter. It helps users adapt the electrode to the intended surface application without changing the handheld electrode itself.

The screw-on design supports direct attachment to the matching GSG hand electrode. Two versions are available for the stated thread types: GOK 38 for GSG 38 with M8 x 1, and GOK 91 for the older GSG 91 with M8 x 1.25.

Surface setup

Screw-on cap pair supports surface measurement with GSG hand electrodes.

Matched electrode fit

Versions are specified for GSG 38 (M8 x 1) and GSG 91 old (M8 x 1.25).

18 mm contact

The diameter of the contact surface is 18 mm for both versions.

Technical Specifications

Probe

Type	surface probe
Probe Diameter	18 mm

Available product variants

Ordercode	Description	Article No.
GOK38-GE	GOK 38: For GSG 38 (M8 x 1) - Surface measuring cap pair for surface measurement with GSG hand electrodes, with 18 mm contact surface diameter for GSG 38 (M8 x 1) or GSG 91 old (M8 x 1.25).	483742
GOK91-GE	GOK 91: For GSG 91 old (M8 x 1.25) - Surface measuring cap pair for surface measurement with GSG hand electrodes, with 18 mm contact surface diameter for GSG 38 (M8 x 1) or GSG 91 old (M8 x 1.25).	601287

Features

Surface measuring cap pair

The accessory consists of a pair of surface measuring caps for use with GSG hand electrodes.

Screw-on connection

The caps are designed to be screwed onto the compatible GSG hand electrode.

Variant selection

GOK 38 fits GSG 38 with M8 x 1 thread, while GOK 91 fits the older GSG 91 with M8 x 1.25 thread.

Contact surface

Both listed versions have a contact surface diameter of 18 mm.
