

S7 pH Adapter Cable

GEAK xS7

Adapter cable for connecting pH/redox electrodes with S7 screw head to instruments with BNC input. Also available with loose ends.

Introduction

The S7-BNC adapter cable is designed for connecting pH/redox electrodes with an S7 screw head to measuring instruments with a BNC connection. It provides a reliable interface between electrode and meter and supports flexible integration into laboratory and field measurement setups. The adapter cable is a practical accessory for pH and redox measurement applications where compatible and secure signal connection is essential.

Versions with loose ends are also available.

Technical Specifications

Cable

Connection	Electrode: S7	Instrument: BNC or loose ends
------------	---------------	-------------------------------

Available product variants

Ordercode	Version	Article No.
GEAK-2S7-BNC	2 m cable, BNC plug	601996
GEAK-5S7-BNC	5 m cable, BNC plug	601998
GEAK-1S7-BNC	1 m cable, BNC plug	605652
GEAK-2S7	2 m cable, loose ends	609599
GEAK-5S7	5 m cable, loose ends	609600
