

PG 13.5

Introduction

The PG 13.5 plug-on thread adapter is designed for the simple mechanical integration of sensors with a 12 mm shaft diameter into measuring and installation setups. It provides a practical PG 13.5 thread interface and is suitable for unpressurized applications, making it a useful accessory for laboratory, water analysis, and general liquid measurement tasks. The adapter supports straightforward mounting of compatible sensors in holders, fittings, or sample arrangements where a PG 13.5 connection is required.
