

Return Form

Legal regulations for the protection of the environment and our personnel require that returned equipment that has been in contact with liquids can be handled without risk to personnel and the environment.

Your repair can be carried out quickly and without queries if:

- this form has to be completed for each unit
- the device is free of hazardous substances and uses packaging that prevents damage to the device
- if the device was in contact with a critical media, a safety data sheet of the media must be fixed on the cover of the package

Device: _____

Type: _____

Serial number: _____

Return reason/ error description:

- Unit for repair/refurbishment Device for calibration Device for disposal

The unit has been operated with the following measuring medium: _____

The medium is water polluting toxic caustic flammable others _____

If it cannot be ensured that the batteries/rechargeable batteries are in perfect condition (e.g. mechanical damage, leaking batteries), they must, in case of doubt, be removed from the unit before being returned and disposed of/dropped off separately at the designated collection points.

For shipping, all cavities of the unit were rinsed and neutralised.

We confirm that there is no danger to people or the environment from this device in this return delivery.
