## **Declaration on EU Regulation (EU) 2023/1214**

### **(11th Sanctions Package/Regulation (EU) 833/2014 Art. 3g**

Dear customers,

We are currently receiving more and more inquiries regarding the use of iron and steel products in relation to EU Regulation (EU) 2023/1241 and Regulation 833/2014 Art. 3g.

With this letter, we would like to inform you, as a customer of Senseca Germany GmbH, that we only use parts and components from well-known manufacturers and long-standing, trusted distributors in our products. However, as a manufacturer of end devices, we have no influence on the origin of the iron or steel used by our suppliers. Therefore, we cannot assume any liability in this regard. We are committed to the traceability and transparency of our products among our suppliers, and many manufacturers and distributors provide information on material properties and origin on their websites. We have obtained relevant information from our suppliers and, to the best of our knowledge, our suppliers do not use iron and steel products from Russia. We ourselves do not directly import iron and steel products from Russia, so as far as we know, none of these materials are used in our products.

Please understand that we are unable to fill out special questionnaires due to the very strong increase in the number of requests.

However, we hope that this letter contains the information you have requested and thank you for your trust and good cooperation.

Remscheid, Jan 1<sup>st</sup>, 2024

Senseca Germany GmbH

A handwritten signature in blue ink that reads "J. Schneider".
